Hello Leslie,

Just wanted to say thank you for sending this draft letter. I was out Friday and we had the holiday yesterday, so I'll be working on my letter today and tomorrow.

I'll check in with you if I have any questions.

Thanks again,
Jason

Jason,

Attached is a very draft letter stating my findings based on our first draft EIS review. There are ways, as I have identified, that the concerns which are still not properly mitigated for in the Final EIR can still be addressed. I spoke with NPS and they indicated measures could be added in the ROD.

I need to still clean it up a bit and I didn't put any introduction etc into it. Our grazing and CAF staff will want to write the intro as they have been working more closely with PRSH on our permits lately.

Sorry it is so draft, but we had another deadline today for permit restoration project streamlining (we didn't have a holiday)

I will make changes to this based on my office comments and a little further review- but I thought it would be helpful if I got something out to you for tomorrow

Hope you had a good long weekend!!!
Leslie

Jason

I have a meeting at 4- I am free up to then. Not sure if you are out of your meetings yet

thanks

Leslie

Good morning Leslie,

I have a bunch of meetings today, but I should be free to talk later this afternoon, most likely any time after 3:00 pm.

Thank you,
Jason

Jason

I did a rapid review. That is a very overwhelming document. I just focused on Alternative B verses A and our previous comments. Tomorrow I will try to talk to my friend at the PRSH to find out if they really didn't make many changes...it appears that they didn't!

It seems to me that they hand-waived at most of our concerns- except pigs and specifically not allowing new wells for increased visitor use. All of the MMS and BMPs they list in appendix f are already supposed to be employed, but frequently are not in the core areas due to lack of funding. Allowing increased uses will only aggravate the existing degraded condition.

I had a meeting scheduled that I had missed for tomorrow until 11:30. I am going to try to talk to PRSH before we talk. I have another meeting at 4. Are you available flexibly in the afternoon? I am emailing PRSH shortly and should know in the morning when they can talk to me, hopefully after 11:30...we could then set our call up for after that.

thanks for staying on this!!!

Leslie

Hello Leslie,

Just checking in. I'm going to be off on Friday and then Monday, because of the holiday, so I wanted to see if you've had the chance to review the Point Reyes FEIS and might be able to discuss tomorrow.

Hope you're doing well,
Jason

Jason

I actually did not have anytime at all. I am now hoping to look at it thursday or friday. I am really sorry about that- surprising how many deadlines there seem to be right now!!
If I get it done before that, I will definitely let you know!!

thanks
Leslie

Hello Leslie,

Are you available sometime tomorrow to discuss the Point Reyes FEIS? I hope you have had the chance to give it a review.

I have a call from 10:00 am to 11:00, but other than that, I am free tomorrow.

Thank you,
Jason
